WHAT WE BELIEVE

“By considering our clients’ goals as our common goals, Kenro Main works tirelessly on each project focusing on exceeding expectations in high quality work completed within constraints.”

- Pieter Terblanche

COMPANY OVERVIEW

With key personnel having a combined total of 30 years experience in the industry, Kenro Main Projects offer benchmark project solutions and superior client service. The core focus of our business is to serve the residential, commercial and industrial industries with exceptional quality work delivered within scheduled time and budget.

Our services include, but are not limited to:

- Water Rehabilitation Systems
- Maintenance & Repairs
 - Residential
 - Commercial
 - Industrial
- Building & Construction Projects
- Specialized Plumbing Services
- Renovations
- Roof Waterproofing
- Paving & Sidewalks
- Concrete Work
- Fabrication Work
- Drywalling/Shopfitting
- And more

ABOUT US

Our Vision – To be the trusted name in chemical-free water rehabilitation plants, construction and maintenance, working with our valued clients to shift benchmarks in quality work and excellence in client relationships, to reach common goals.

Our Offer – To exceed expectations through innovation and pioneering working methods to improve current processes and standards.

Our Conduct – We respect and embrace diversity in culture, religion, language and tradition in South Africa. We strive to create sustainable working environments for our employees, sourced from local communities, by accommodating differences whilst improving skills and education for their current and future benefit. We aim to build transparent business relationships with our clients, based on trust, respect and the common goal of successful execution and completion of projects.

Our Aim – By respecting the environment through demonstration of high ethical standards in communities and on work sites, we aim to create safe and healthy working environments for our employees.

Our Values – Through honesty, transparency, respect and humanity we value our employees and our clients. Our business relationships are supported by the pillars of tolerance, understanding and mutual cooperation.

Our goal – We strive to make social responsibility one of our main focal points as we would continuously improve our surrounding communities' quality of life where and as possible. In our professional capacity we strive to challenge set targets, safety compliance as required by the client and to continuously improve environmental protection on site.

SERVICES

MAINTENANCE & REPAIRS

General maintenance & repairs of any structure or fixture indoors or outdoors of any property, such as walls, tiles, fences, plumbing fixtures, roofs, ceilings, windows & doors. This includes replacements, painting, sealing and/or repairing as required.

WATER REHAB SYSTEMS

Custom designed water rehabilitation systems that work 100% chemical-free and with very little maintenance required. Systems are designed according to existing water system requirements and installed without interrupting water supply. These systems guarantee a minimum of 50% used water rehabilitation, saving money & benefiting the environment.

CEILING INSTALLATION, REPAIRS & REPLACE

Conventional Ceilings, PVC Ceilings, Styrofoam Ceiling Tiles, Knotty Pine Ceilings, Concrete Ceilings, Tray Ceilings and Tall Ceilings.

BUILDING & CONSTRUCTION

Building from existing plans or planning & construction from start to finish. This includes any projects from garages, outbuildings, boma's, lapa's, house expansions and more.

PAVING & SIDEWALKS

Area preparation & laying of pavement and/or sidewalk, either with bricks or by casting concrete. Demarcation can be done as and if required. This may also include driveways, parking bays, patio's and more.

ROOF WATERPROOFING

Sealing and waterproofing of most roof types.

MASONRY WORK

Masonry work may include anything from building walls, columns, pillars, retainer walls or bases that should carry or contain heavy weights.

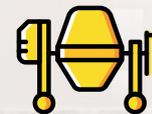

STEEL FABRICATION

Custom designed and fabricated steel work includes mainly burglar bars, balustrades, hand railings, heavy duty security gates, entrance gates, custom steel brackets and frames, steel doors and more.

PLUMBING

Plumbing work done by qualified plumber registered with PIRB. Plumbing work includes installation of drain systems, unblocking of drains, installation & replacement of geysers, installation of hot and cold water piping, repairs of leaking pipes of any size, installation of storm water systems as well as general plumbing maintenance.

CONCRETE WORK

Concrete work may include any cement structures that require reinforcing steel, casting and curing for various purposes.

This may include screed flooring, concrete slabs, bunt walls, parking bays, driveways at a steep angle, fire pits and more.

HOME & OFFICE RENOVATIONS

Remodelling of existing buildings' interior and/or exterior. This includes removal and replacement of fixed structures such as light fixtures, kitchen cupboards, sinks, taps, islands, counter tops, ceilings, cornices, tiling, lacing, wall cladding, bathroom cabinets, basins, splash-backs, taps, showers, bathtubs and more.

MANAGEMENT

PIETER TERBLANCHE - OPERATIONAL DIRECTOR

An experienced and knowledgeable individual who has been working in the industry for the better part of his 25 year career, has an eye for detail with a core focus on exceptional quality work. Pieter Terblanche is known to be a hardworking and innovative problem solver, ensuring time efficiency without compromising the final goal.

Pieter is a red-seal qualified and PIRB registered plumber, well-known to the local community of Rustenburg. Pieter successfully operated a plumbing business for more than 15 years, before endeavouring into various other construction industries, obtaining vast knowledge and experience in civil construction, steel fabrication & structural assemblies. Pieter managed teams of 40+ individuals on the most recent projects.

With the vast experience and knowledge Pieter has acquired during his career, no project is too challenging. From completing various client goals, Pieter is proven to be an exceptional team leader, a sharp quality controller and his skill set is unparalleled.

"I consider each project presented as an opportunity to apply my impeccable eye for detail, leading my team toward the common goal of excellence in quality work. I have no problem to get down and dirty myself, where and when required. I believe this ensures team motivation, inspiring our staff to have pride in their work and speaks of Kenro Main's dedication to delivering unmatched service in the industry."

CHANELL STEYN - ADMIN & FINANCE

A successful entrepreneur and owner of multiple businesses with at least 15 years of experience in customer relations & customer service, along with 10 years of experience in business management, Chanell Steyn sets out to offer exceptional services & build long term business relationships. Chanell is highly trained in various computing skills, software and project management, and oversees and manages client relations, finance and project administration.

"After managing the head office of a large structural & mechanical engineering firm with a staff compliment of 150, working on a R178 million contract for 3 years I was actively working in close relation with professionals on the technical aspects of projects, gaining knowledge in the fabrication and construction of steel structures along with building construction. I uncovered a passion for the technicality of the industry and I strive to manage, with the help of our trusted team at Kenro Main Projects, to become a nationwide competitor in the construction & maintenance industry.

As a woman in a predominantly male industry, I recognise and understand the challenges faced, yet I enjoy overcoming these challenges. I believe that as a woman with vast knowledge and experience, I managed to position myself in the industry as an exceptional team motivator, respected manager, business developer and swift problem solver through innovation and pioneering processes & techniques.

I believe that honest, transparent business relationships are very important in creating sustainable business. By considering our clients' goals as our common goals, Kenro Main works tirelessly on each project focusing on exceeding expectations in high quality work completed within constraints."
